A GUILT-FREE SMART GADGET FOR KIDS 3-8

All the play. None of the guilt.

Place a card or just ask — Cheeko tells stories, rhymes and lessons and answers questions out loud, in your child's language. No videos. No feeds. No doom-scroll.

Cheeko gives kids stories, learning, play and the chance to ask questions — **without the guilt of handing over a phone.** No open internet, no ads, no feeds.

WORKS

No videos, no feeds

Made in India — in every Indian language.

THE OPPORTUNITY

A proven category. No Indian leader yet.

A guilt-free smart gadget for kids — one that teaches and answers instead of feeding endless video — is a proven, growing category overseas, yet India has no home-grown brand and no regional-language depth. We have the device, the collectible cards and the languages. You help it reach every Indian home, first.
